Degree of Master (Engineer)

#### About the qualification comparison

UHR assesses the foreign qualification as comparable to a Swedish Degree of Master.

The figure below shows the assigned level of the Swedish qualification in the Swedish National Qualifications Framework (SeQF) and how it relates to the European qualifications frameworks.

This assessment is provided as guidance by UHR. It is based on our knowledge of the country's education system and not on the individual's education documents. UHR applies the principles of the international recognition convention Lisbon Recognition Convention and assumes the foreign qualification is recognised in the country of study.

Find out more about higher education in Sweden and the admission process at Universityadmissions.se

## **About the Swedish Council for Higher Education**

The Swedish Council for Higher Education (UHR) is Sweden's ENIC-NARIC centre. We have a national task to inform about and evaluate foreign education.

qualifications system (in fact the education system) to the EQF. Qualifications included in the register of the National Qualifications System (NSK) are also linked to the EQF but the NSK is not a NQF as such.

### The level of Swedish qualifications and degrees

Swedish degrees and final grades are placed within reference frameworks that show different levels of learning outcomes. In the figure, the Swedish reference framework SeQF is shown as well as the European reference frameworks that facilitate comparison to other countries. Please note the figure does not contain all Swedish qualifications.

Not all qualifications are included in the figure.

### What do the abbreviations mean?

- SeQF The Swedish National Qualifications Framework
- EQF European Qualifications Framework
- Bologna Framework Qualifications Framework for the European Higher Education Area (QF- EHEA)

<sup>\*</sup>Please note that the Advanced Higher Vocational Education Diploma is included in EQF och SeQF level 6, but not in Bologna level 1.
